Basic Expectations/Inherent Authority

The primary purpose for the imposition of non-academic discipline in the School of Medicine setting is to protect and preserve the quality of the educational environment in the campus community. This purpose entails several basic expectations:

1. That the School of Medicine and the University at large assumes high standards of courtesy, integrity, and responsibility in all of its members;
2. That each student is responsible for his/her conduct and that continuation as a student is conditional upon compliance with the requirements of student conduct expressed or implied in this Code.

The School of Medicine reserves the right to take necessary and appropriate action to protect the safety and well-being of the campus community and the patients we serve. The Executive Associate Dean for Medical Education and Student Affairs is charged with the welfare of all medical and health professions programs students. Accordingly, in emergency situations, this individual has full authority to deal with student conduct according to the exigencies of the emergency and for its duration.

The School of Medicine is not designed or equipped to rehabilitate students who do not abide by this Code. It may be necessary to remove those students from the campus and to sever the institution’s relationship with them as provided in this Code.

The Senior Vice President and Dean for Campus Life is delegated responsibility pertaining to all student organizations and student government and, in conjunction with the Executive Associate Dean for Medical Education and Student Affairs, has the responsibility and authority to discipline such organizations whose members are students within the School of Medicine.

Confidentiality

The details of Conduct or Progress and Promotions meetings are confidential and will not be released outside the University without the student’s specific written permission except as provided by applicable law. If a student is found to have violated the Conduct Code, the resulting sanctions can be included in any performance assessment or letter of recommendation requested by the student or an outside entity. Conduct Code violations and sanctions may also be reported to other agencies, such as the military, the federal government, licensing boards, and others if requested by the agency and accompanied by a signed release from the student.

Violations of the Law and This Code

Students may be accountable both to civil authorities and to the University for acts that constitute violations of law and of this Code. Those accused of violations of this Code are subject to the disciplinary proceedings outlined in this Code while criminal, civil, or other internal proceedings regarding the same conduct are pending. Accused students may not challenge the disciplinary proceedings outlined in this Code on the grounds that criminal charges, civil actions, or other internal proceedings regarding the same incident are pending, may be initiated, or have been terminated, dismissed, reduced, or not yet adjudicated. The University will refer matters to federal, state, and local authorities for prosecution when appropriate.
Prohibited Conduct

Each student may be subject to this Code whether misconduct occurs on University premises, at University or School of Medicine sponsored activities, or at any location off-campus when such conduct is brought to the attention of the University or the School of Medicine.

It is neither possible nor necessary to specify every instance of misconduct that could result in disciplinary action against a student.
