

**2021 Antimicrobial Resistance and Therapeutics
Discovery Training Program Fellowship Graduation
Symposium**

**Monday, May 3rd, 2021
ARTDTP Graduation Symposium
3:00-5:15 PM
VIA ZOOM**

Aimee Tierney
PhD Candidate in Microbiology and Molecular Genetics
“Characterization of a LysR Regulator in MDR
Acinetobacter baumannii”

Zane Laughlin
PhD Candidate in Biochemistry, Cell and Developmental Biology
“Mechanism of 50S Ribosomal Subunit Recognition and
Modification by the *M. tuberculosis* rRNA
Methyltransferase TlyA”

Keynote Speaker

Ralph Isberg, PhD
Professor, Department of Molecular Biology & Microbiology
Tufts University
“Growth of an Intracellular Pathogen: the Vacuole Guard
Hypothesis Greets the Endoplasmic Reticulum”

Sponsored by:

Department of Microbiology and Immunology and the Emory Antibiotic Resistance Center
