AGENDA

12:00pm  Periodontal Disease Could Predict Diabetes
Ryan Demmer, PhD, MPH

12:25  Epidemiology and Prevention of Periodontal Disease in People with Diabetes
Steven Engebretson, DMD, MS

12:50  Physician-Dentist Collaboration in Diabetes and Periodontitis
Evie Lalla, DDS, MS

1:15  Diabetes and Dental Implants
Steven Engebretson, DMD, MS

1:40  Discussion

2:00  Adjourn – Lunch is on your own
Program Description
As part of the 9th Annual World Congress on Prevention of Diabetes and its Complications, (WCPD9), WCPD9 is hosting a concurrent symposium for Diabetes and Oral Health.

The World Congress on Prevention of Diabetes and Its Complications is a global forum where experts on diabetes and prevention meet to facilitate quality scientific research discussions on principles of diabetes prevention programs from around the world. The conference has been held regularly since 1996 when the first historic Congress took place in Copenhagen, Denmark. Since then, increasing scientific evidence on the potential for prevention of Type 2 diabetes has been revealed.

This global forum focuses on recommended principles of diabetes prevention from around the world and provides proven strategies in the treatment of diabetes complications. Diabetes prevention experts will describe current research and technology used in prevention; effective screening tools; and medications. Diabetes management experts will discuss the relationships between diabetes and cancer, cardiovascular disease, oral health; and associated complications such as insulin resistance, retinopathy and renal failure.

The Diabetes and Oral Health Symposium will focus on therapeutic areas relative to the correlation of diabetes and oral health.

Educational Objectives
At the conclusion of this program, participants will be able to:

- Illustrate the methodology for screening patients at high risk of developing diabetes;
- Identify methods for early diagnosis of diabetes;
- Practice the basic knowledge and skills needed for prevention of diabetes and complications;
- Develop a patient care plan focusing on multidisciplinary approaches

Who Should Attend?
Dentists, dental hygienists, dental assistants and all members of the dental team will benefit from this program.

Educational Methods
Illustrated lectures, case studies and discussion

Continuing Dental Education Credit
This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Emory University School of Medicine and the World Congress on Prevention of Diabetes. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Emory University School of Medicine designates this live activity for 2 continuing dental education credits.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.
Location
The session will be held in the Georgia World Congress Center, 285 Andrew Young International Boulevard, NW, Atlanta, Georgia, Room A-403.

Registration Fee
**Dentist and Auxiliary: $50**
This fee does not include breakfast, lunch or refreshment breaks. Participants are on their own for lunch. The registration fee does not include admission to the exhibit hall.

Cancellations
All cancellation and refund requests must be made in writing and submitted via email to Karlotta Brown at kcaldw2@emory.edu.

Transportation and Parking
Downtown Atlanta and the Georgia World Congress Center (GWCC) are easily reached via MARTA train and bus, taxi, shuttles and Uber. The GWCC operates 3 surface parking lots and 2 parking decks. Standard daily rate is $10, but during major events and game days, parking ranges from $15-$50 on site.

Hotel Accommodations
The symposium has not reserved a group room block, but a large variety of hotels are available within walking distance.
