

# Clinical Research Bootcamp 101

Friday, April 14, 2023

Location: HSRB Auditorium

**Learning objectives:** Emory University’s School of Medicine Office of Office of Faculty Academic Affairs and Professional Development is committed to faculty development in scholarship. The aim of the bootcamp is to provide participants with a comprehensive overview of the major components involved in clinical research, including the development of sound research protocols, maintaining compliance and high ethical standards, and the successful planning of a productive research career. This will be a “case-based bootcamp” with short lectures preceded by a brief “case presentation” highlighting specific questions.
