DESCRIPTION:

Pocket-sized comprehensive food list for patients with Maple Syrup Urine Disease. This self-explanatory book on the Leucine (LEU) Exchange System contains information on foods found in the Amino-Acid Analyzer, a computer program used by dietitians to analyze Leu content. Information on household measurements and serving sizes, calories, grams of protein, Leu content, and Leu exchanges is provided in ledger format. Also included are sub-lists of common foods, formatted pages to compile a favorite food log and keep notes, and helpful resources. This is a great quick reference of a wide variety of foods.

Shipping included in cost of booklet
