UPDATES ON GLYCEMIC CONTROL BIOMARKERS IN

ABETES

Live and Enduring Diabetes Education

The objective of these webinars is to provide practitioners with an update on the role of glycated albumin as a diagnostic tool in patients with diabetes. Recent studies validating glycated albumin as a potential glycemic control marker have brought its use out of limited research settings and it is now widely available in commercial laboratories in the United States.

Director y Moderator:

Rodolfo J. Galindo, MD, FACE

Assistant Professor of Medicine Emory University School of Medicine Investigator, Center for Diabetes and Metabolism Research Emory University Hospital Midtown Medical Chair, Hospital Diabetes Taskforce **Emory Healthcare System**

- **01** Program: Series of bi-weekly live webinars, with live and on-demand online access to lectures
- O2 Time: Wednesdays 8:00 pm (EST)/5 PM (PST)
- **03** Schedule:
 - Intro/Pre-session Assessment: 5 min
 - Lecture: 30 minutes
 - Questions and Answers: 20 min
 - Post-lecture Evaluation: 5 min

Date	Webinar title	Speakers
Wed, April 28 th	Current State of Diabetes Management	Guillermo E. Umpierrez, MD, CDCES
Wed, May 12 th	Glycemic control markers: going beyond HbA1c to guide diabetes therapy	Elizabeth Selvin, PhD, MPH
Wed, May 26 th	Glycated albumin vs Hba1c in the evaluation of glycemic control in patients with diabetes	Vivian Fonseca, MD
Wed, June 9 th	Role of glycated albumin in patients on dialysis	Barry I. Freedman, MD, FACP
Wed, June 23 th	Validation studies of glycated albumin as a marker for glycemic control	Cyrus DeSouza, M.B.B.S
Wed, July 7 th	Glycated albumin as biomarker of diabetes complications	Rodolfo J. Galindo, MD, FACE

Each program will consist of a live lecture and a session of moderated Q&As.
