

# Exciting Opportunity: Emory Vaccinology Training Program (VTP) – NIH T32 Summer 2023 Openings for Fellows at Emory University

Fellow driven/mentor supported VTP research fellowships starting **July 1, 2023** at Emory

👉 Are you a PhD, MD, MD/PhD graduate with an interest in vaccinology? 👉 Are you a US Citizen or Naturalized (Green Card) US Citizen? 👉 Within seven years of your terminal degree? 👉 Do you have up to two years to devote for training? 👉 All trainees must commit full-time effort to the program and its related research activities.

Please go to: <http://medicine.emory.edu/VTP-T32> for more information

## Areas of study

- Pathogenesis and Vaccine Discovery
- Innate and Adaptive Immunity to Antigens
- Translation, Delivery, and Clinical Trials
- Vaccine Epidemiology and Health Policy
- Vaccine Safety

## Trainees Accepted to VTP T32 Program will receive

- Annual stipend at appropriate NIH-specified level based upon years of postdoc experience
- Travel allotment / research supplies
- Tuition for 3 required courses (2 graduate level vaccinology courses & Ethics)

**DEADLINE FOR SUBMISSION: March 24, 2023**

## Application Process:

- 1) Applicants are to review potential mentors listed by areas of study located on the website. Send initial inquiry to potential mentor to see if the mentor is taking on new fellows through the Emory VTP-T32 program along with your CV and area of mutual interest. Simultaneously, contact Dianne Miller (see #2).
- 2) Potential candidates should contact Dianne Miller, Program Coordinator at [dmill06@emory.edu](mailto:dmill06@emory.edu), who will schedule a preliminary discussion with the VTP Program Directors, Dr. Walter A. Orenstein or Dr. Nadine Rouphael
- 3) All preliminary discussions **must** take place prior to **February 22, 2023**, in order to apply to the program.
- 4) Once mentor and program reviews are complete and approval given, candidates are encouraged to submit an application, please see box below.

**Application package includes submitting the following documents via email to [dmill06@emory.edu](mailto:dmill06@emory.edu) by close of business on March 3, 2023:**

- Cover letter specifying area of interest with statement of future goals/interest in a career in vaccinology, including why you feel qualified for the fellowship, what you hope to get out of the fellowship regarding a career in Vaccinology
- Current CV
- A letter of support from the proposed VTP mentor with their NIH Bio-sketch
- Letter(s) of support from a recent mentor or a collaborator
- A two-page description of the proposed research project includes graphs/figures but not references
- MD applicants from clinical departments must also provide a letter from the candidate's Department/Division Chair indicating departmental commitment to provide protected time for the trainee applicant to devote at least 75% effort to the proposed research training.

Dates revised 2/1/2023
