

UNIVERSITY OF MIAMI
MILLER SCHOOL
of MEDICINE

THE DEPARTMENT OF **MICROBIOLOGY AND IMMUNOLOGY**

**Multiple Tenure Track Faculty Positions in Bacteriology, Immunology
and Virology at Assistant, Associate, and Full Professor levels**

**Department of Microbiology and Immunology
University of Miami Miller School of Medicine, Miami FL**

The Department of Microbiology and Immunology at the University of Miami, Miller School of Medicine is expanding its faculty and broadly recruiting in bacteriology, immunology, and virology. We seek applicants at all levels with outstanding research programs. Areas of interest include infection and cancer, host/pathogen interactions, HIV/AIDS, emerging pathogens, cancer immunology, and autoimmunity. We are particularly interested in applicants with a translational focus and have an established funded research program. Applicants will be expected to establish their research program in the outstanding environment of our disease-focused Centers, particularly the Center for AIDS Research and the NCI-designated Sylvester Comprehensive Cancer Center. Applicants should have a Ph.D., M.D. or equivalent, and should be able to effectively contribute to both the research and the teaching missions of the Department of Microbiology and Immunology. Quality research facilities, significant start-up funds, and salary support will be provided commensurate with the rank. Interested applicants should send a curriculum vitae, statement describing research accomplishments and future research goals, relevant reprints, and the names of three references to: sarguelles@med.miami.edu. For further information about the Department, please visit our website: <http://micro.med.miami.edu/>.

The University of Miami is an Equal Opportunity/Affirmation Action Employer.
