

EMORY ORTHOPAEDICS SUMMER SCHOLARS PROGRAM

The Department of Orthopaedic Surgery at Emory University has developed an immersion opportunity for women and under-represented minorities. The 6-week summer internship program allows students to participate in a directed internship during their college or medical career. The overall goal of the internship is to increase students' exposure to the exciting field of orthopaedic surgery.

WHAT YOU'LL EXPERIENCE

- **Clinical and surgical experience with a renowned team of Orthopaedic Surgeons**
- **Faculty Mentorship**
- **Hands-on skill sessions**
- **Discussion groups and seminars to help you get ahead**
