

EDUCATION AND TRAINING

Eddie Morgan was born in [Millport](#), Isle of Cumbrae, Scotland. He received a B.Sc. (Honours) in Pharmacology from the [University of Glasgow](#) in 1976, and a Ph.D. in Pharmacology from the University of Glasgow in 1979. His dissertation (advisors [Garth Powis](#) and Paul Skett) was on the “ Effects of ethanol on hepatic microsomal drug metabolism”. As a Postdoctoral Fellow with [Minor J Coon](#) at the University of Michigan from 1979-82, Dr. Morgan teamed with Dr. [Dennis Koop](#) to identify, purify and characterize a novel ethanol-induced P450 protein, CYP2E1.

Dr. Morgan then moved to the [Karolinska Institute](#) in Stockholm, Sweden where from 1982-86 he was a Visiting Scientist with Prof. [Jan-Åke Gustafsson](#) working on the purification of sex-specific forms of cytochrome P450 and their regulation by the pulsatile pattern of Growth Hormone secretion.

EMORY ACTIVITIES

Dr. Morgan has a long-standing commitment to graduate student training, and was Director or DGS of the [Molecular and Systems Pharmacology](#) (MSP) graduate program from its inception in 1996 until 2012. He was also Director of Graduate Studies in Biochemistry and Molecular Biology (1990-94), and Physiological and Pharmacological Sciences (1994-96). He was the PI of Emory's T32 Training Grant in the Pharmacological Sciences (5T32GM008602-15) from 2004-2013.

Dr. Morgan is also committed to increasing the number of scientists in the workforce who are students from diverse backgrounds, including training students in his own lab, recruiting such students into Emory graduate programs, and providing matriculated students with the resources they need to be successful. He is currently Graduate Coordinator of Emory's NIH-funded Initiative for Maximizing Student Development ([IMSD](#)) program, and a founding member of the [Atlanta Society of Mentors](#).

NATIONAL ACTIVITIES

Dr. Morgan is President-Elect of the American Society of Pharmacology and Experimental Therapeutics ([ASPET](#)), and a member of the International Society for the Study of Xenobiotics ([ISSX](#)). He also served ASPET as Secretary-Treasurer, Chair of the Drug Metabolism and Disposition Division, and as a member of the Board of Publications Trustees. He was the Meeting Chair for the 17th North American meeting of ISSX in 2011. He is the Editor in Chief of [Drug Metabolism and Disposition](#) and a former Associate Editor of *Molecular Pharmacology*. Dr. Morgan also served as a regular member on the Pharmacology and XNDA Study Sections of the NIH, and on the Pharmacology Test Committee of the National Board of Medical Examiners.
