

## PEACE FOR MOMS

# Self-care for New Parents

As a new parent, it is easy to feel overwhelmed when you're depressed or anxious. It can be hard to deal with problems when you're feeling sad and have little energy. Setting goals for things that are within your control has been shown to help women feel emotionally well. Your goals should be fairly easy to start. You do not need to do all of these. Choose one or two activities to try in the coming weeks.

People who are experiencing symptoms of depression or anxiety also have thoughts about harming themselves or that they might be better off not living any longer. Usually these thoughts go away once treatment has begun but if these thoughts get worse, if you feel unsafe, or feel you cannot resist the urge to act on these thoughts, please call GCAL-The Georgia Crisis and Access Line 800-715-4225
