Examples of appropriate questions for the on call pharmacy resident:

What is the appropriate empiric antibiotic for this patient?

How should I monitor this anti-epileptic?

A consult service recommended I start this drug, what is the correct dose?

What dose of argatroban/enoxaparin/fondaparinux should I start on this patient?

How long does this anticoagulant have to be discontinued before we can do this procedure?

This drug concentration came back, what should I do?
