

Medical Simulation Residency Track

Emory University School of Medicine

Track Director: Sharon Muret-Wagstaff, PhD, MPA smuret@emory.edu

Proposed Topics

- Curriculum design
- Medical simulation modalities
- Building and using low-cost simulation models
- Task trainers and procedural learning
- Simulation scenario design
- Technical aspects of medical simulation
- Simulation session facilitation
- Simulation session debriefing
- Integration of simulation into the educational curriculum
- Integration of simulation into a healthcare organization’s quality and safety strategy
- Simulation performance assessment
- Simulation program evaluation
- Scholarly products and peer review in medical simulation

Tentative Schedule

Small Group Discussions are held every month, typically on the second Monday of the month, 4:00-5:00 pm. The resident’s one-month (one-half day per week) hands-on practicum will be arranged during a month agreed upon by both the residency program and the Track program. The practicum will take place in the Excel Simulation Center, Emory University School of Medicine.
