

Registration, Cancellation, and Withdrawal

Every student is required to be registered prior to each academic year. Those who have not followed standard procedures in any way must present their plan of study for the entire medical course to the Dean or the Dean's designate for approval.

Registration for any term is not complete until the student is in compliance with all published procedures and until outstanding financial responsibilities to the University have been met. Registration information may be obtained from the School of Medicine Registrar's Office. After the last date for changing courses, registration may only be permitted by joint consent of the Executive Associate Dean for Medical Education and Student Affairs or their designee, the Registrar, and the faculty of the desired courses. Registration is not permitted after eight calendar days following the date on which classes began. Tuition and fees are due and payable prior to the first day of class each semester.

A student's registration and attendance of classes is considered as agreement to comply with the rules and regulations of the University as published in the catalogs and other official publications of the school and as amended or revised during the student's continued enrollment.

Registration may be cancelled during the first week of classes as stated in the University academic calendar with the precise date each semester. Cancellation of registration means that no deficiencies will be noted on the student's transcript. A student who wishes to leave the University after the first week must officially withdraw; honorable dismissal requires that this procedure be followed.

Withdrawal forms may be obtained in the School of Medicine Registrar's Office.
