

# Emory Center for Experiential Learning (ExCEL)

The ExCEL Simulation Center is located in the James P. Williams School of Medicine Building and includes state-of-the-art spaces and equipment such as task trainers, high fidelity electronic mannequins, mock clinical spaces such as an operating room and ICU used for immersive simulation scenarios for individual and interdisciplinary team learning, and virtual reality equipment for learning various procedural techniques. All ExCEL rooms have the capacity for direct and remote observation and recording.

ExCEL is a resource for the entire School of Medicine. Currently, many of the school's educational programs, residencies, fellowships, and faculty programs work with the Center staff to build robust simulation educational experiences.
