Graduate Medical Education (GME) at Emory University

- Emory has 100 ACGME accredited training programs.
  - Emory is the only sponsoring institution in Georgia to offer 52 of these training programs
  - Emory has 25 core residencies and 75 fellowships
- Emory currently trains 1,172 accredited residents and fellows. One third of these positions are in primary care areas.
  - Emory provides more than half of the residency training positions in Georgia
- Georgia’s institutions train 1,199 residents in primary care. Emory trains one third of these residents.
- Emory’s ACGME residents and fellows train at various affiliated institutions including: Emory University Hospital-58 programs, Emory University Hospital Midtown-33 programs, Grady-60 programs, CHOA at Egleston-37 programs, and VAMC-37 programs.
- Emory-trained physicians practice in 110 of Georgia’s counties and provide approximately 25% of the practicing workforce in Georgia.
- The annual Emory GME budget for stipends and benefits is approximately $78 million.

How Vital are Emory Residency and Fellowship Training Programs to the State of Georgia?

The Office of GME currently oversees 822 residents and 407 clinical fellows. 43% of the current house staff are female, 57% are male. In June 2015, 241 residents and 218 fellows completed their training. During the last academic year, Emory hosted 56 visiting residents from other ACGME accredited programs across the United States, including 27 from other Georgia sponsoring institutions.

Georgia ranks 40th in the total number of residents per 100,000 population. Georgia’s rate of 21.8 residents per 100,000 is below the national average of 26.8 per 100,000.
