

Emory Oto Speakers Bureau Spring 2022

EMORY
UNIVERSITY
SCHOOL OF
MEDICINE

**Department of
Otolaryngology-
Head and Neck Surgery**

Name	Subspeciality	Rank	Travel	Talks
Charles Moore, MD cemoore@emory.edu	Comprehensive Otolaryngology	Professor	Yes	Head and Neck Cancer Disparities
				Community Engagement
				Urban Health Initiatives
				Developing a Hospital Violence Intervention Program
Elizabeth Willingham, MD elizabeth.willingham@emory.edu	Comprehensive Otolaryngology	Assistant	Yes	The ENT Hospitalist - The Emory Experience
				Tracheostomy Tubes - What You Need to Know ! (appropriate for OHNS residents, critical care, anesthesia)
				Otolaryngology for the Gastroenterologist (intended for the Gastroenterologist)
Anita Sethna, MD FACS asethna@emory.edu	Facial Plastic and Reconstructive Surgery	Associate	Yes	Rhinoplasty: Analysis and Surgical maneuvers
				Nasal Valve repair and Caudal Septal Deviations
				Eyelid reconstruction after facial paralysis
				Surviving Surgical internship
Brian Boyce, MD bboyce@emory.edu	Head & Neck and Reconstruction	Assistant	Yes	Savliary Endoscopy/Sialendoscopy
				Quality Improvement and Patients Safety In Head and Neck Oncology
				HPV-Associated Malignancies and HPV Vaccination
				Enhanced Recovery After Surgery (ERAS) for Head and Neck Oncology
				Management of Obstructive and Chronic Sialadenitis

H. Michael Baddour, MD, FACS hbaddou@emory.edu	Head & Neck and Reconstruction	Associate	Yes	Surgical management of facial paralysis
				Updates in the management of facial paralysis
Amy Y. Chen, MD, MPH, FACS achen@emory.edu	Head & Neck	Professor	Yes	Thyroid surgery
				Parathyroid surgery
				Team in medicine
				Diversity, equity and inclusion
				Gender diversity in medicine
Jennifer Gross, MD jhgros3@emory.edu	Head & Neck and Reconstruction	Assistant	Yes	Head and Neck Free Flap Reconstruction
				Osteoradionecrosis
				Management of Oral Cavity Malignancy
Azeem Kaka, MD azeem.kaka@emoryhealthcare.org	Head & Neck and Reconstruction	Assistant	Yes	Regional flaps in the Era of Microvascular Reconstruction: Flaps every surgeon should know
				Surgical Management of advanced salivary gland malignancy
				Practical approach to management of oropharynx cancer (when is TORS really indicated?)
Mihir R. Patel, MD mihir.r.patel@emory.edu	Head & Neck	Associate	Yes	TORS - unknown primary
				HPV Oropharynx Squamous Cell Carcinoma De-escalation Trials
Nikki Schmitt, MD, FACS nicole.cherie.schmitt@emory.edu	Head & Neck	Associate	Yes	Head and neck cancer survivorship
				Benefits of statin drugs for head and neck cancer patients
				Cisplatin ototoxicity: Have we made any progress?
				Immunotherapy and tumor immunology 101
				IAP antagonists for head and neck cancer
				Operating on older patients with head and neck cancer: When, Why, How

Merry Sebelik, MD, FACS, MAMSE msebeli@emory.edu	Head & Neck	Professor	Yes	Head and Neck Ultrasound
				Surgical Education
				Simulation-Based Surgical Training/Surgical Coaching
				Thyroid Surgery for Benign and Malignant Disease
				Parathyroid Surgery
				Ultrasound-Guided Ablative Techniques in the Head & Neck
				Head & Neck Surgery in Global Health
				Management of the Difficult Tracheo-Esophageal Prosthesis
				Patient and Caregiver Education for Total Laryngectomy
Amanda Gillespie, PhD amanda.i.gillespie@emory.edu	Laryngology & Speech Pathology	Associate	Yes	Voice therapy efficacy and efficiency
				Behavioral approaches to treatment of chronic cough
				Novel voice therapy approaches
				Role of the speech pathologist on the multi-disciplinary laryngology team
				Training the next generation of SLPs
Jeanne L. Hatcher, MD, FACS jeanne.hatcher@emory.edu	Laryngology	Associate	Yes	Aging voice/geriatric laryngology
				Chronic cough (multidisciplinary approach and more - multiple angles on this topic)
				Awake laryngeal procedures
				Laryngotracheal stenosis (urgent airways, endoscopic and open management, multiple angles as well)
				Intubation injuries
				Transgender voice
				Wellness and resilience throughout the career

Emory Oto Speakers Bureau
Spring 2022

Anthony Law, MD, PhD anthony.law@emory.edu	Laryngology	Assistant	Yes	An Overview of AI in Otolaryngology
				An Machine Learning Approach to Screening for Laryngeal Cancer
				Lowering the cost and burden of Laryngosocpy/Stroboscopy with Machine Learning
Andrew Tkaczuk MD andrew.thomas.tkaczuk@emory.edu	Laryngology	Assistant	Yes	Globus
				Controversies in Idiopathic Subglottic Stenosis
				"What's this tube in my neck?" A potpourri of airway appliances
				Advances in Management of Recurrent Respiratory Papillomatosis
				THRIVE-ing in the OR, airway management alternatives.
Steven Goudy, MD, MBA steven.goudy@emory.edu	Peds Oto	Professor	Yes	Velopharyngeal insufficiency
				Cleft lip and palate
				Vascular anomalies
				Translational approaches to head and neck reconstruciton
				Entrepreneurship and otolaryngology: how to start a business and scale a team
				Leadership, self-awareness and team building
Kara Prickett, MD, FACS kara.prickett@emory.edu	Peds Oto	Associate	Yes	Pediatric Thyroid Surgery
				Pediatric H&N surgery
				Quality Improvement in otolaryngology
				21st century patient and family education (apps, simulation, etc.)
				Multidisciplinary management of tracheostomy dependent patients
				Opioid stewardship in otolaryngology

Nikhila Raol npraol@emory.edu	Peds oto	Associate	Yes	Management of pediatric dysphagia
				Management of refractory OSA in the pediatric population
				Conducting studies using claims data
				Qualitative and mixed methods research
Doug Mattox, MD dmattox@emory.edu	Otology / Neurotology	Professor	Yes	Surgical management of pulsatile tinnitus
				Anatomy and physiology of hearing
				Otosclerosis and stapes surgery
Esther X. Vivas MD evivas@emory.edu	Otology / Neurotology	Associate	Maybe	otologic manifestation of IIH
				Cochlear implants
				CSF leaks to temporal bone
Emily Barrow, MD emily.barrow@emory.edu	Rhinology/Skull Base	Assistant	Yes	Endoscopic skull base surgery
				Skull base reconstruction
				Spontaneous CSF leak, rhinologic manifestations of IIH
Joshua Levy, MD, MPH, MSc, FACS Joshua.Levy2@emory.edu	Rhinology & Otolaryngic Allergy	Associate	Yes	Fungal Manifestations of Sinonasal Disease
				Aspirin-Exacerbated Respiratory Disease: Emerging Opportunities for Research and Patient Care
				Controversies in Nasal Polyps, Revisiting the Role of Surgery and Biologics
				Contemporary Management of Empty Nose Syndrome
				Olfactory Dysfunction: Evaluation and Management in the COVID Era
				The Lothrop procedure for advanced frontal sinus disease: 100 years later
				Keys to Unlocking the Frontal Sinus
				Otolaryngic Allergy

Sarah K Wise, MD, MSCR skmille@emory.edu	Rhinology & Otolaryngic Allergy	Professor	Yes	Nasal polyposis subtypes and current management strategies
				Relationship between allergy and chronic rhinosinusitis
				Sublingual immunotherapy
				Current evidence and knowledge gaps in allergic rhinitis
				Biologics for nasal polyposis
				Epistaxis
Jason Yu, MD jason.lee.yu@emory.edu	Sleep Surgery	Assistant	Yes	Hypoglossal nerve stimulation for treating OSA
				Sleep apnea surgery and the future otolaryngologist
				Upper airway physiology during DISE
