

Daily Overview (March 31, 2020)

We are finalizing documentation and standardization of our internal processes related to COVID-19, and continue planning heavily for the upcoming weeks.

Safety:

- EHC is in the process of re-evaluating its approach to PPE, with new guidelines to follow soon.
- We continue to evaluate room air circulation rates and placement of HEPA filters for procedural suites across sites.

Methods:

- We have finalized our algorithm for scheduling and rescheduling outpatient diagnostic imaging.
- Documents guiding the performance of portable imaging examinations and MRI for COVID+ vented patients are being finalized.

Equipment:

- Additional Emory radiologist home interpretation workstations have been delivered and are being readied for deployment.
- Grady and CHOA radiologist home interpretation workstation deployment continues.

Supplies:

- Additional sources of PPE continue to be explored and additional shipments are arriving for use.

Staffing:

- The majority of responses to a survey to catalog clinical skill sets for clinical faculty, fellows, and residents have been received. If you haven't done so already, please complete this brief survey.
- Planning is underway to track metrics and prepare detailed plans for surge conditions if the need arises.
