MEDICAL PHYSICS IMAGING RESIDENCY PROGRAM

Program Accreditation:

Emory Medical Physics Imaging Residency is a CAMPEP-accredited 24-month program.

Rotations During the 24-Month Residency

- General Radiography
- Fluoro/Interventional Radiography
- Mammography
- Computed Tomography
- Magnetic Resonance Imaging
- Nuclear Medicine
- Radiology Informatics
- Dosimetry and Radiation Safety
- Ultrasound

Program Strengths:

- Exposure to all equipment vendors
- MQSA initial qualification
- Participation in department quality improvement programs
- Development funds for travel and books
- Opportunities to teach medical residents and technologists
- Preparation for the American Board of Radiology examination process

About Emory University Hospital System:

- Unique range of training environments
 - Academic/tertiary referral centers:
 - Emory University Hospital
 - Winship Cancer Institute
 - Egleston Children’s Healthcare of Atlanta
 - Urban hospital/trauma center:
 - Grady Memorial Hospital
 - Outpatient clinics:
 - The Emory Clinic
 - Emory University Hospital Midtown
 - Emory Orthopedics and Spine Center/Executive Park
 - Emory Brain Health Initiative
 - Wesley Woods Geriatric Hospital
 - Governmental Health Services
 - Atlanta Veteran’s Affairs Medical Center

About the Program:

The Medical Physics Imaging Residency program at Emory University is a collaboration between the Department of Radiology and Imaging Sciences and private medical physics consulting group Alliance Medical Physics (AMP). We provide residents with traditional didactic education plus real-world experience in both academic healthcare and industrial environments. This hybrid approach well-prepares graduates to immediately step into an exciting career and is a unique strength of our program.

Our graduates are enjoying careers at top universities like Duke and Emory, healthcare systems like Prisma Health, and industry leaders like Alliance Medical Physics and Radiological Physics Associates.
